Sponsor's name(your advisor): \_\_\_\_\_

Sponsor's phone: \_\_\_\_\_

Sponsor's email: \_\_\_\_\_

Name of Research Project: \_\_\_\_\_

Write an abstract (4,500 character max) and submit with this application. Consider abstract guidelines available at <http://cascadiageo.org/scholarship/forms>

- The abstract should state the problem to be addressed, the hypothesis or hypotheses to be tested, and the overall objectives of your proposed project.
- Discuss the previous work on your problem(s) that 1) places the project in a disciplinary and, if appropriate, regional context and 2) documents the importance of your project).
- Concisely state how you plan to address your problem(s) and test your hypothesis or hypotheses

Duration of investigation (dates, or range of dates): \_\_\_\_\_

Prepare a budget for the research project. Include all costs for labor, materials, and equipment needs (1 page max). Where possible, include volunteer time and other cost sharing relationships. Include a column in your budget that designates the proportion of each line item is requested by this application.

Total amount requested (\$500 max): \_\_\_\_\_

Justify your budget request in 1,500 characters or less.

List other grants that have 1) supported your project, 2) are currently supporting your project, or 3) are being applied for.

Have you ever received a Cascadia GeoSciences scholarship/ grant before? \_\_\_\_\_

What for: \_\_\_\_\_ When: \_\_\_\_\_

If you received other Cascadia GeoSciences funding, please include your final report or progress report.

Include a brief resume, including education, positions held, publications, and accomplishments relevant to your qualifications to undertake proposed research (1,500 character max).

Each application must include two letters of reference from advisors. Advisors should confirm the applicant is in good academic standing. Make sure your advisors submit their letters before the deadline and before you submit your application.
